SUMMARY

Software Developer with a keen eye for design and a focus on user experience. Skilled in building visually appealing and intuitive web components while adhering to best practices in front-end development. Eager to leverage my skills and contribute to building innovative products.

SKILLS

Javascript, HTML5/CSS3, React, Typescript, Next.js, Redux Toolkit, Java, Tailwind CSS, DaisyUI, Firebase, Zustand, MongoDB, Netsuite Suitescript, Spring Security, GitHub, Bitbucket, Appwrite, Chart.js

EXPERIENCE

Associate Software Engineer - Centium Consulting, Pune

MAY 2023 - PRESENT

- Delivered tech solutions to US clients using JavaScript & NetSuite (client & server-side SuiteScripts). Possess strong NetSuite expertise.
- Built dynamic and user-friendly web pages and forms using React, incorporating field validation for robust user input.
- Automated testing & Xcelero integration with Selenium, ChromeDriver, & Postman. Contributed to Xcelero's security using Java Spring Security.

Front-end Developer - Cloud Tiffins (Freelance)

JUL 2021 - AUG 2022

- Developed a local platform (managed individually) for my cousin's tiffin business. This system facilitates client management, payments, and tracks open/close dates, streamlining manual tasks and accounting.
- Leveraged ReactJS, Redux, and TailwindCSS. This ensured a responsive, user-friendly web with visualized interactive charts for analysis.
- Utilized Appwrite for the platform's database, user security, and other backend functionalities, creating a robust and secure system for cousin's business.

Data Analyst Intern - Capgemini - Remote

FEB 2021 - MAY 2021

- Honed Big Data, SQL, and Python skills to represent data comprehensively. Mastered ETL tools (Tableau, Informatica) to extract valuable insights, applying them to a project of Airbnb.

EDUCATION

CDAC Acts, Pune - PGD - Advance Computing

Percentage - 83.1%

CGC College of Engineering, Mohali - Bachelor of Technology, Computer Science
